

2012-15 Toyota Tacoma

3D Mesh Bumper Grille

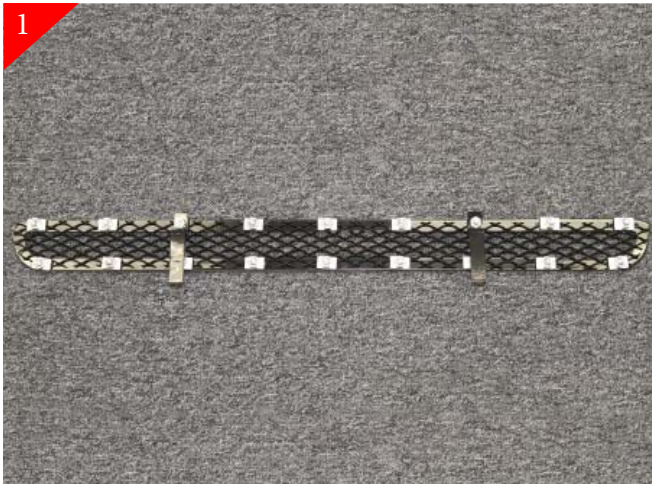

After

PART# 39347 Bumper

1

Necessary brackets for the installation of the bumper grille should be attached to mesh grille already. If needed loosen up the nut in order for you to rotate the brackets around so they fit through the opening in the bumper.

2

Showing Back side of bumper opening

Rotate brackets back vertical so that catch and hold the grille in place. Tighten in place without over tightening. If necessary you may remove the brackets then mesh grille into opening followed by replacing the brackets and secure in place.

NOTE:

Insure all fasteners OEM & others are secure and in place. Check fitment of plastic shroud core support cover to insure that it does not interfere with hood latch operation.

Completed Installation

For installation of billet grilles that require cutting of the stock shell, proper tools, knowledge and skill are needed. Carriage Works is not responsible for care & accuracy of the installation, only for Fit & Finish of its products. Use a qualified installer or contact original vendor for references to complete all instructions.

NOTE: Please adjust horizontal blades if irregular. This is the result of shipping and handling outside of Carriage Works control. Also Carriage Works Recommends applying a high quality automotive wax to maintain the original appearance.
