

Ford 500 Stock Emblem Re-mount Kit

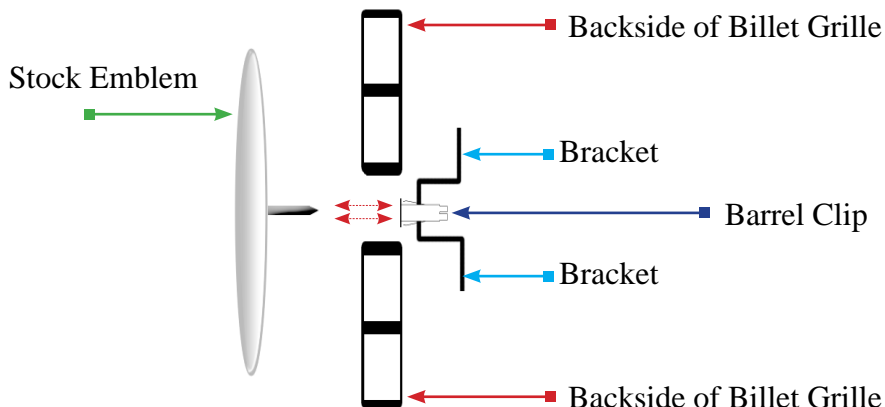

Part# 401

Start by placing the “Barrel Clip” into hole opening in bracket as shown above (Fig B.). Next center the emblem on the billet grille making sure that the emblem is correctly located. Place the brackets on the backside of the billet grille and simply push the emblem and the bracket together as shown in the diagram below.

NOTE: Verify the location of the emblem before attaching the clips to the emblem as they cannot be removed after installation.
