After

Before

Next you will be installing the bumper grille. First place a U-clip on the straight end of the supplied bracket as shown. Then loosely attach the bracket to the billet grille using the supplied #8 x 5/8" Phil pan head screw.

Place billet grille into opening and center. Then while reaching under the front end of the car. Rotate the brackets so that they hook on the backside of the bumper opening (Fig 2B).

For installation of billet grilles that require cutting of the stock shell, proper tools, knowledge and skill are needed. Carriage Works is not responsible for care & accuracy of the installation, only for Fit & Finish of its products. Use a qualified installer or contact original vendor for references to complete all instructions.

NOTE: Please adjust horizontal blades if irregular. This is the result of shipping and handling outside of Carriage Work's control. Also Carriage Works Inc. recommends applying a high quality automotive wax to maintain the original appearance.
